

# QUESTIONS TO AN EUROFIMA EMPLOYEE

## **Q1 WHEN HAVE YOU JOINED EUROFIMA, AND COULD YOU INTRODUCE YOURSELF?**

*My name is Manuela Boog, and I joined EUROFIMA in September 2022. I am currently working as Accounting and Reporting Manager. Before joining EUROFIMA, I worked in the logistics industry and, apart from a few months' excursion into marketing, I have always worked in the field of finance mainly in Controlling.*

## **Q2 WOULD YOU PLEASE SHARE WITH US YOUR MAIN DAILY TASKS AND CURRENT PROJECTS?**

*My daily tasks involve accounting, internal control, as well as compliance topics. I'm currently focusing on integrating GHG accounting into our internal controls framework, while also preparing for the upcoming policy review cycle.*

## **Q3 WHAT HAS ATTRACTED YOU TO JOIN EUROFIMA, AND HOW HAS YOUR EXPERIENCE LIVED UP TO YOUR EXPECTATIONS?**

*The job advertisement caught my attention because it offered the possibility to work part-time. This flexibility, combined with EUROFIMA's mission to promote and support sustainable rail transport, was very appealing to me. The opportunity to work with a diverse and skilled team, and to contribute to projects that have a real-world impact, is incredibly engaging. During the last three years the team's diversity even increased, and I really enjoy being a part of it.*

## **Q4 WHAT DO YOU ENJOY MOST ABOUT WORKING FOR EUROFIMA?**

*What I enjoy most about working for EUROFIMA is the collaborative and supportive environment. The team is dedicated and always willing to share knowledge and expertise. To me, the publication of our annual report is one of the most memorable moments of the year. It truly captures what it means to work here, as every team member contributes to it in one way or another.*
