As of August 2025 – or by arrangement – we are looking for a

Sustainable Finance Analyst (80%-100%)

As a Sustainable Finance Analyst, you will work across investments, funding, and ESG integration, gaining hands-on experience in multiple core financial functions, whilst supporting our mission to finance sustainable rail transport in Europe.

Responsibilities and Impact:

- You will support our Portfolio Manager colleagues in their investment analyses and deputize them for the investment management
- You will assist our Funding Officer colleagues for funding in international capital markets and support the team on its investor relations activities
- You will drive the integration of ESG principles across our investment management processes as well as in our funding activities
- You will collaborate with our railway clients, internal stakeholders and external counterparties including major international investment banks
- You will contribute to reports, analysis and proposals to Senior Management, presentations and administrative tasks.

Qualifications and Experience:

- You hold a Master's degree in Finance, Economics, Business Administration or Law and want to study for a post-graduate qualification (e.g., CFA, FRM, CIIA)
- You demonstrate some first practical experience in the banking or investment management industry or in the field of sustainable finance and ESG investing
- You have a solid understanding of investment instruments and financial markets
- You follow the recent developments in ESG, sustainable trends and green finance
- You are an experienced Microsoft Office user and knowledge about Bloomberg is an advantage
- You feel comfortable to work in an international environment and are open to connect within the international finance community
- You convince people with your precise communication and influencing skills in English (oral and written), any other language is an asset
- You are committed to sustainability and have an interest in sustainable mobility solutions

What we offer:

- A unique opportunity to work on real investments and capital market transactions early in your career
- A meaningful role with a direct link to sustainable transport and climate action
- A supportive, collaborative and international work environment that values innovation and creativity
- Flexible work environment: Basel office and remote work options
- Comprehensive benefits, ongoing professional development, and a commitment to work-life balance

About the position:

The assignment is an entry level position. You will work in our modern offices at Meret Oppenheim Platz 1C in Basel, just steps from the main train station - or from home. We look forward to receiving your complete application in English including your motivation letter/email at jobs@eurofima.org.

About us:

EUROFIMA is an equal opportunity employer committed to creating a diverse environment and supporting flexible working arrangements. At EUROFIMA, we work in small interactive teams and foster an environment for fast learners eager to create an impact with their daily work. From day one, you will assume a high level of responsibility and independence. We offer an international work environment and support our staff with their development through relevant training.

The **Treasury & Asset Management unit** is responsible for the management of liquidity and investment portfolios totalling more than EUR 4 billion. We integrate Environmental, Social and Governance (ESG) factors into our investment management process and act as a sustainable and responsible investor.

The **Capital Markets unit** is responsible for issuing bonds (EUR 10+ billion) in international capital markets and for investor relations with our investors. We promote ourselves as an investment in sustainable mobility and are a regular issuer of Green bonds.
